## PROJECTS

- MEDICINAL PLANT DETECTION** | Vs Code | Java-script | React JS | HTML5 | CSS3 | Firebase | ML
  - Medicinal plant identification using React, Firebase, and machine learning enables users to easily recognize and learn about various medicinal plants.
  - React provides a responsive and interactive user interface for capturing plant images.
  - Firebase handles backend services such as data storage, authentication, and real-time updates.
  - Machine learning models analyze the images to accurately identify the plants, offering users detailed information and potential health benefits.
- AMBULANCE HIRING APP** | Android Studio | Java | XML | Firebase
  - Developed an Android app using Android Studio, Java, and XML for emergency patient assistance.
  - Created a user-friendly interface for seamless navigation.
  - Integrated Firebase for secure data storage and real-time updates.
  - Utilized Google APIs for location-based services to optimize ambulance dispatch times.
- NON-MOBILE DIGITAL PAYMENT SYSTEM** | Vs Code | JavaScript | CSS3 | Vercel | React | Firebase | Typescript | API
  - Developed a secure payment platform with facial recognition and voice command authentication.
  - Enabled multilingual support to cater to diverse and rural user demographics.
  - Designed for small-value transactions to serve users without smartphone access.
  - Focused on user-friendly, inclusive features for underprivileged communities.

## EXPERIENCE

- Industrial Training in “Android Development” at Mount Reach Solution Pvt Ltd.** **4th Aug 2021-30th Sept 2021**
  - > Completed a What’s app clone project gaining experience in integrating firebase and design small-scale android applications.
- 3-Month Internship in “Full Stack Web Development” at Slash Mark** **15 Dec 2023 - 15 March 2024**
  - > Contributed to developing and maintaining web applications using modern technologies & gained hands-on experience in both front-end and back-end development, enhancing my skills in JavaScript, React, and backend frameworks.

## TECHNICAL SKILLS

|                   |                                                                                     |
|-------------------|-------------------------------------------------------------------------------------|
| <b>Languages</b>  | Python, C, C++, Java, HTML5, CSS, JavaScript.                                       |
| <b>Frameworks</b> | React Js, Next Js, Angular Js.                                                      |
| <b>Dev Tools</b>  | VSCode, GitHub, Eclipse, Android Studio, Repl , Anaconda, SQL Workbench, Jupyter NB |
| <b>Databases</b>  | MySQL, Firebase, MongoDB.                                                           |

## EDUCATION

|                                                                                                                 |                                                  |
|-----------------------------------------------------------------------------------------------------------------|--------------------------------------------------|
| <u>Bachelor of Engineering in Computer Engineering</u><br>Dr. D. Y. Patil Institute of Technology, Pimpri, Pune | <b>June 2025</b><br><b>CGPA : 8.93 / 10.0</b>    |
| <u>Diploma in Computer Engineering</u><br>Government Polytechnic Murtijapur, Akola                              | <b>Summer 2022</b><br><b>Percentage : 91.09%</b> |

## ACHEIVEMENTS

- Secured the **1st rank** at college-level Project Based Learning Event with Project Topic “**Ambulance Hiring System**”.
- Solved **475+ Leetcode** Problems and Java DSA **5 Star coder** on HackerRank.
- Completed Courses like **Full Stack Development** and **Fundamentals of Java** from **Infosys Springboard**.
- Achieved Google Cloud (Associate Cloud Engineer) Badge.
